t005479 Previously on Project Runway ***LOADED ... You will be working in teams of two . - I'm gonna choose Epperson . - Ah . I'd like to work with Ra'mon . We have to understand each other . I do n't have nothing else to say . I'm good . I do n't know what the judges ' take is gonna be , but if I gotta save myself , I will . I'm trying to keep Mitchell as focused as possible . Every time I turn around , he 's gone . Ow ! Auf Wiedersehen , bitches ***LOADED ! You did n't come up with a concept . - My concept was n't good enough . - I'm not finished . - Exactly . That 's what I was going through . - I'm not finished . - What did you do , Mitchell ? - I worked on the swimsuit . You did the swimsuit , and Ra'mon did everything else ? Ra'mon , you are the winner ***LOADED of this challenge . Are you serious ? Mitchell , three strikes , and you 're out . Never in Project Runway ***LOADED history has a team member for a winning design been eliminated . This is Project Runway ***LOADED . - Of course I 'm the best . - Let 's do this . The search for the next big fashion designer ***LOADED . - I have to win . - You better watch out . Sixteen designers ***LOADED . - I'm in . You 're out . - Do n't get cut . Three finalists will make it to Mercedes-Benz Fashion Week . I'm the best designer ***LOADED here . I have no fear . - Make it work . - That 's my line . But only one can be the winner ***LOADED . This is my dream . For these

designers ***LOADED , Project Runway ***LOADED is the chance of a lifetime .

The winner ***LOADED of Project Runway ***LOADED will receive a fashion spread in marie claire magazine , a Paris vacation courtesy of Evian , and \$, from L'Oreal Paris to start their own line . I 'm really excited to find out what the challenge is . We need to , like , weed out the talentless people .

You know , really ... I mean , it 's time , you know . Hopefully , we 're not in teams again , and we can showcase our ... - Own own talent . - Yeah .

- Working with Kristyl , it was really hard . I know it was so hard on her . It was hard on me . Going into the next challenge , I 'm hoping if I do n't win , I 'll at least be in the top three . Now that I 'll be known as the B-I-T-C-H .

Oh , I do n't think so . What happen in this situation is you did not stand up for yourself early enough . Anyway , I was glad to see a new day . It 's a new day . I just want to forget about yesterday . All right , let 's hit it . Are you coming ? Let 's go and see what happens today . Hello ***LOADED . Hi . We 're down to designers ***LOADED . Lucky . So , I bet that you 're ready to hear about your next challenge . Yes . Well , Tim is waiting for you in the workroom with women who know exactly what they want . Your challenge is simple : Make all of these women very , very happy . - Easy enough ? No ? - All we know is that there are women who know what they want . It could be anything .

It could be homeless people to Eskimos . Good luck , and I 'll see you on the runway ***LOADED . Bye . Bye . Yeah ! I see all of our models standing there , and everybody just breathes this huge sigh of relief , because people were thinking it was gonna be bridezillas . Designers ***LOADED , say hello ***LOADED to your clients for this challenge . The models of the runway ***LOADED have been invited to a special industry event , and what they wear will very likely be their ticket to the future . - Wow . - They need to stand

out and be noticed so that agents , designers ***LOADED , and the press see not only their impeccable sense of style but their ability to wear and sell a look . Your job is to make certain that that happens . At this point , I 'm feeling pretty nervous that Kojii might have a completely different style than I do . Okay ? All right , designers ***LOADED . You have your new clients . You have minutes to caucus . Then we 're going shopping ***LOADED at Mood , where you 'll have a budget of \$. And this is your first one-day challenge . You have until midnight tonight . I will see you in minutes . Thanks ***LOADED , everybody . Have fun . Tell me what you do n't want . No jersey . Deep purple . This challenge is actually kind of simple . I know what Emarie likes . We have the same aesthetic , we have the same idea , and we have the same vibe . When you go to an event , you do n't have to be all over-the-top , like , I 'm here ! You know ? Just simple , understated . It 's like designing something for myself if I was a black girl . You know ? - Fresh ? - Right . - It should be fresh . - And not too much . Like , something that is , like , simple but interesting . Not a little girl , but kind of , like , sexy but not too much . - Right . - I want something that will show my body but not to expose too much . - I do n't want something too big . - Right . And if it 's long , then I just want it tight . - Right . - Something tight . My model Matar ... Oh , man . She just had a whole list . From sexy , romantic , chic , elegant , classy , fitted , short , punk , tiger . I 'm , like , wait , wait , wait . Valerie 's concept is is that she wants something flattering to show off her curves . She 's gonna be in a room full of beautiful girls , so she wants to be able to stand out . So , we 're definitely gonna do , like , a shorter length . You definitely do n't want anything long . So Kalyn walks in , and she 's a bit apprehensive just because she 's not sure what she wants . You like having an open back . Yes . I

love my back . She thinks she wants color , but then maybe she does n't . She 's very indecisive , so I 'll have to coach her into being comfortable with it . So it 's definitely gonna be you . There 'll be a little bit of quirkiness of my aesthetic in it . - No , I want that . - Okay . I 'm having some thoughts about this red . Fatma has a color scheme in mind that I 'm not too wild about . Red is a little garish for a model event . Black and gold would be better for her . The model that I 'm working with is Tanisha . I 'm having positive thoughts about it because it 's just going so smoothly between us , and I think she comes with a really great sense of style . I want , like , a low V-neck back . Oh , my God . Are you sure this is good for this occasion ? I think so . ' Cause I like to stand out . Whenever I go somewhere , I wanna make a statement . I 'm just worried , like , a royal blue and gold jumpsuit is gonna look like a costume . Royal blue ... I mean , that 's a strong color . That color makes a statement by itself . Me and Ebony start talking . She wants a royal blue satin jumpsuit with gold rope . I 'm afraid that , like , if you do that in addition ***LOADED to the entire body being royal blue , like , that 's gonna be a lot . I automatically get really scared , ' cause that 's not me at all , and I have to stand by this garment . I basically want to show that I do n't want to do , like , everyday commercial work . - I want to do the artistic and the edgy . - Okay . I wanna step out of everybody 's comfort zone . Yeah . Okay . Kojii basically tells me that she wants kind of this s look . I do n't really know that era as much as she does . I 'm happy with lace or leather . I have n't worked with lace a whole lot , but we can play with it . I think that this is a really big challenge . I 'm designing new stuff and pushing myself in different directions . Thank you , models . See you later . I think I got everything . Yeah . You 're gonna rock it . I 'm sure . I 'm sure

you 're gonna rock it . I 'm excited . I 'm really , really excited . All right
, designers ***LOADED . Come with me . All right . You have your \$ budget .
You have minutes to shop . Go . Ooh , yeah . That 's actually perfect . - So
cut yards of this ? - Yes . I see this black suiting fabric . I 'm super
excited that I 've ... I feel like I 've just had this really great find of a
fabric . Running around a fabric store looking for orange fabric . They had one
bright piece of orange fabric . It was terrible . So I scrapped it . I told Tim
... I said , " That 's it on the floor . I decided to go with brown . " - You
're gonna make it work . - I know . And remember , you 're the designer
***LOADED , she 's the client . You can only address ***LOADED her needs as
well as you can . Five minutes , everybody . Thank you . My model , Valerie ,
she likes warm colors ... chocolate browns and , you know , black . Me
personally , as a designer ***LOADED , I never really design anything in black
. All right , designers ***LOADED . That 's it . Time is up . Let 's head back
to the workroom . Thank you , Mood . Thank you , Mood . D Ow , that was painful
on my finger d What 's the matter ? Oh , just thinking about somebody else
having to go home . Somebody else , what ? Having to go home ? - Having to go
home . - Who do you think it 's gonna be this time ? - It 's just so depressing
. I do n't know . - Me . You know , this is the first time that I 've felt like
people have gone home . It 's , like , you think is a lot , - but then you look
around , you 're like , oh . - You 're like , oh . They 're just getting
knocked off . If anyone has a fully finished cocktail dress ... Over here . I
work best under pressure ***LOADED . Some of the designers ***LOADED are
still struggling . I 'm a little nervous about the timeline that they 've given
us . You work , you work , you work . And I know I 'll still be sewing as Tim
rips the needle out of my hand to drag me to the runway ***LOADED . Coming up

on Project Runway ***LOADED ... I do n't want it to look like a Smurf prom dress . Do n't use that word again . I am a complete wreck , as usual . Oh , what the hell do I do in this case ? I will say it 's a bold color . It 's just looking like she 's been rolling around in bed . Hi , everyone . - Hi , Tim . - How is everybody ? - Good . - Good . I 'm just here to check in on you . - Althea . - Hey . - How are you ? - Good . My model wants , like , a black look that 's a simple skirt that shows off her legs , and then , like , a man 's cigarette jacket that sort of goes with it . What 's a cigarette jacket ? You mean a smoking jacket ? - Like a smoking jacket . - Okay . Sorry . And then for the belt , I 'm thinking of , um , kind of four times over , doing , like , a stitch on top of that to , you know ... layering it . I like it . I do n't think it has to look like a cummerbund . - I think it can just look like a sash . - And that 's true . It actually might ... with the black ... You know ? ' Cause it could go there . This has definitely a " wow " factor potential . I ca n't wait to see it . - Yeah . I 'm excited for it . - I am , too . Thanks

***LOADED , Tim . - Hi , Christopher . Talk to me . - Oh , hey . How are you ? All right . So I had a consultation with my model . She wanted to accentuate that she has a small waist and ... And it 's a long torso . So what about the color decision ? So the color ... She really wanted to go with a green ... an emerald green . And I love playing with the color . I will say it 's a bold color . It 's a bold color . Tim 's gonna say she looks like a salad . Thanks

***LOADED , Christopher . Epperson , talk to me . This is the direction she wanted to go in ... sexy , romantic , flowing or a strong punk . - What ? What ? - From flowing to a strong punk . - I know . Totally . Totally . - Wow . Flowy , strong punk , cocktail , tiger . - Well , this is chic . - I got chic . There 's also innovation in what you 're doing there . At least from here to

here . I would n't touch it . I think it 's beautiful . - Just ... - Okay

be Epperson . - Okay . - Hello ***LOADED , Qristyl . - Hello ***LOADED , Tim

. Talk to me . What I wanted to do was kind of use a fabric that has some stability in it that would really , you know , show off her curves . My concern about this is that it looks ... And forgive me for this blunt word . It looks messy . It 's just looking like she 's been rolling around in bed . Okay . Well , we do n't want that . We do n't want that . Well , time-wise , you need to make decision . I know . I got a lot of work to do there . Go , go , go . Thank you . Hi , Logan . Hi , Tim . How are things ? Kind of a work in progress . I do n't want it to look like ... I do n't know ... like a Smurf prom dress or something , you know ? Oh , now that you 've said Smurf ... Do n't use that word again . - Do n't plant that in anybody 's head . - I wo n't . I 've never really worked with a lot of lace before . - That does n't surprise me a bit . - Kind of an experimental thing for me . - You have a conundrum . - I know . You really do . - Carol Hannah . - Hi , Tim . - Talk to me . - I really wanted to give her an emphasis on the waist to show off her bust , and then , you know , stay close to the body . I mean , the one comment I 'm gonna make about the top ... - Uh-huh . - Is this design robbing your model of her youth ? - Okay ?

Thank you . - Thank you . Designers ***LOADED , I just want you to know I am extremely excited by all the potential in this room . Soon your models will be coming in for a fitting , so take advantage of that time . - Thank you , Tim .

- Take care . Have fun with your models . - All right . - But not too much fun . With this challenge , like any other challenge , I 'm basically focusing on doing my best . My family is constantly on my mind . I want them to be proud of me . - Hey . - How are you ? How 's Elah and Shilah ? Hi , Elah . How are you ?

Love you , love you , love you . Kiss everybody . Everybody kiss everybody for

me , okay ? It 's so hard being away from my family . It 's the hardest thing I 've ever experienced . Mwah . Bye , honey . - I love you . - Bye . - I love you . Bye . - Love you . I hope all of this pays off , because I choose not to ever be away from them like this again . Tim gave me my critique . It was a really hard critique , so I scrapped that dress completely . I gotta come up with something else . I said , you know what ? Black will be safe , and it better be good . Oh , look ! Supermodels ! There 's just way too much beauty happening .

- Hey , girl . - Hey . - How 's it going ? - Good . - Hi . Oh , my God , I 'm loving this right now . - How are you ? It 's totally getting there . First , this is the only orange they had . - Okay . - Cheap . Yeah . A little too much . Then I started working with this . That 's awful . This is just ... That 's a pattern . I 'm , like , okay , she wants orange , she wants orange , and I went with my own instincts . I 've worked with so many different celebrities and different people , and they trust my judgment , so why am I so concerned with this situation when I know that I wanna make her look the best she can ? Great . Great , great , great . - You want more cleavage ? You want more ? - Yeah . Well ... You 're the one that said you did n't want a lot of cleavage . Wait . No , no , not too low . Just more cleavage . That 's fine , that 's fine . Honey , please do n't tell me what to do . I do n't ever tell you how to model ... - Yes , I do tell you how to model , do n't I ? - Thank you . - Longer ? - Yeah . Oh , yeah . - Longer , not shorter . - No , keep going shorter . Shorter . I want my cha-cha to hang out . You do n't like it . I can tell you do n't .

- You always say that . - I can tell you do n't like it . What are you talking about ? Okay , show me how you 're gonna walk with this . I tend to get a little anxious , and anxiety is not a good thing to have when you 're designing because you gotta really just trust your gut . I swear , this is exactly what I

envisioned . And I wanted it black . You get that , too . This is even more amazing than I had expected it ... like I had envisioned it . At this point , I 'm just really trying to focus on what 's important and what do I need to get done now . It 's just a lot of the little handwork about the tailoring that I really want to have a time to do perfect . We were all nervous about our ideas screwing you all up . As long as I send something down the runway ***LOADED that I 'm proud of , - then it does n't really matter . - Right . But it 's definitely nerve-wracking . I made her into kind of this gothic Cinderella . She loves the look , but at the same time , she would go to the party , and people might be looking at her for the wrong reasons . I think the fit in here right now is beautiful . My garment is at about % . I still have to do the zipper . I have to inset the collar . I have to hem it . Blah , blah , blah . I am a complete wreck , as usual . Okay . The dress is fitting Valerie very nicely . It 's showing off her silhouette . The only thing I 'm a little concerned about is that it might be a little too simple . It would be cute in the front . In the front ? Okay . So I was adding ... I was playing with some of these . So yeah . I do n't know . Okay . I mean , if you do n't want it , we can take it off . You do n't want to just use this material ? My garment is still in pieces , so she 's kind of really hesitant . For people who do n't know construction , it 's really hard for them to envision it when it 's just in pieces . But she trusts me and ... I hope she trusts me . - Have a good night . - Okay . As I look around the room , I notice that my garment is completely different from everyone else 's . It 's not done yet . Do n't judge . As I leave the workroom , the only thing I 'm thinking is get a good night 's sleep ' cause it 's gonna be two hours of hell tomorrow morning . Coming up on Project Runway ***LOADED ... You have ten minutes . - Oh , no . I just broke

the needle . - Oh , no . I definitely still have a lot of doubts . I hope it comes together . Okay , I 'm , like , about to cry . I ca n't compete with your sexiness right now , Logan . - Are you wearing silver shoes , too ? - Yeah . It 'll distract Heidi from staring at my dress so long . You , Logan , are in ! I 'm nervous about the runway ***LOADED show . Just thinking to myself , " Kristyl , you 've pulled things off at the last minute before . " But this is where a designer ***LOADED has to really think creatively . Runway ***LOADED , here we come . The morning of the runway ***LOADED show , I come in , I take one more look over my dress , which is what I always do , just to see if I need to add anything real quick or if I need to take anything away . - A boning hat . - I love it . Are you gonna wear it ? Yes , I 'm gonna wear it today on the runway ***LOADED . If someone was to say , like , " Make a ' s dress , " I 'd be like , " What ? " It 's kind of this mix on s and , like , Marilyn Manson goth or something . Kojii is a little bit different than most of the other models , which I like , so she 's got a little bit more of an edge to her . I pleased my client , but at the same time , it 's not really my aesthetic , so I hope the judges like it . Are you working it out , Kristyl ? Oh , yeah . I 'm good . I 'm definitely up against the clock , but I do n't want to just do anything . But I can do it , and I will do it , even though I would 've preferred to have done a color . Every woman likes a nice chic black dress in her closet ***LOADED . Good morning , designers ***LOADED . Good morning , Tim . I 'm about to send in your models . You have two hours to send them to the Garnier hair studio and the L'Oreal Paris makeup room . Please use the Macy 's accessory wall thoughtfully . All right ? But two hours , and then we 're all walking to the runway ***LOADED . Okay ? I 'll be back . I 'm sending in your models . Thank you . Hey . Hi . - How are you ? - Good . How are you ?

They 're either gonna love it or they 're gonna hate ***LOADED it . So , I 've made something that I 've never really made before , and I 'm happy that I am not just playing it safe . I feel really excited today . I 'm not really nervous because I 'm really confident in what I made . - Oh , my God , you look killer . - This is so cute . Most people were getting dresses made , and I was getting , like , a three-piece outfit . So I know that 's a big challenge for her , and she really impressed me . There 's still a lot of people that are n't finished . No one 's really looks like crap . But I did think Althea 's looked like crap . I mean , I think it would 've looked nicer if she stapled it together , to be quite frank . Oh , my God , it 's per ... It 's perfect . I think the people that are gonna be in the bottom are definitely Epperson , because that just looks like a rag . And then Johnny 's garment looks like he just threw it in a dryer or just , like , stomped on it , and it 's awful .

Epperson 's dress is one of those dresses that you could see the judges hating ***LOADED or loving . I get it , ' cause I know he likes to shred pieces and reattach them . So it 's definitely his aesthetic . It 's gonna be ... Only time will tell if the judges get it . I think hair and makeup is , like , really important with this dress . - That looks pretty . Do you like it ? - Yeah . Oh , I love it . I love it . Designers ***LOADED , you have ten minutes . All right ? And I mean it . We 're gonna have a nice , smooth exit , are n't we ? - Yes . - Yes . - Oh , no . I just broke the needle . - Oh , no . You 're about to feel a needle go right into that back . Okay , I 'm , like , about to cry . I 'm feeling very stressed . I 'm wishing that I had more time to complete it . I was probably more nervous just because the garment is n't all me . Designers ***LOADED and models , this is it . We 're going to the runway ***LOADED , and we 're going to have - a fabulous show . - Yes . - Yes ? - -

Epperson ? - I 'm here . Louise ? That 's it . Thank you , everybody . Coming up on Project Runway ***LOADED ... You 've just aged her , years , which , for the model world , is like dog years . Hello ***LOADED . Hi . Welcome to the runway ***LOADED . As you know , in fashion , one day you 're in , and the next day , you 're out . For this challenge , the tables were turned . Usually , your models work for you . But this week , you had to work for them . You had to create a look that would make them stand out and be noticed at an industry event . You had \$ and one day to put it together . All right . Let 's meet the judges . First , we have American designer ***LOADED , Marc Bouwer . Filling in for Nina Garcia , we have editor for marie claire magazine Zoe Glassner . And award-winning costume designer ***LOADED and top celebrity stylist , whose clientele includes Angelina Jolie , Jenn Rade . We will score your designs as they come down the runway ***LOADED . One of you will be named the winner ***LOADED , and one of you will be out . Let 's start the show . I think my dress really shows off her curves . I would 've still preferred a little bit of color on the runway ***LOADED , but I really feel like this dress she can rock to an event . Celine looks absolutely amazing . Oh , my God . I actually have a chance of winning this . She 's the only one that looks extremely chic . And I tailored it to the T. It 's very much what I do . And she looks like a lady , which is what she wanted . So mission accomplished . It fits her perfectly . It 's done to perfection . There are no pins in it or whatever . So I am confident . The color looks gorgeous on her . It 's not something that if they had told me , " Hey , make an outfit for this model , " that I would 've made , but the dress looks great . Kojii 's walk is fierce . So I think that it 's definitely a fun look . I did take a risk , but I 'm happy that I 'm pushing myself in different directions . Katie walks down with such elation . It 's really

exciting to see that she 's happy in the garment I created for her . My client 's idea with my idea was perfect . She 's romantic and in rough . I 'm like elegant and in jagged edges . I feel like no one else is doing what I 'm doing here . She loved everything about what I put her in . She wanted to look hot and girly at the same time , and that 's what I think I did for her . I am so happy ' cause Tanisha looks so good in it . I feel like my client 's happy , and I feel like it definitely represents me as a designer ***LOADED . I 'm very excited about my dress , and I think Fatma looks absolutely stunning in it . I think the overall presentation of the dress is really " wow " worthy . As Vanessa comes out , I so love it . Do I think maybe I could 've pushed it further ? Maybe . My goal was to make something for Lisa so that when she walks in , I want people to just turn around and go , " Wow ! " I nailed it . I definitely nailed it . If I call your name , please step forward . Louise . Irina . Christopher . Nicolas . Gordana . Shirin . Ra'mon . If I have called your name , congratulations . Your scores have qualified you to move on to the next challenge . You can leave the runway ***LOADED . The remaining designers ***LOADED have the highest and the lowest scores . One of you will be named the winner ***LOADED , and one of you will be out . Let 's bring out your models . I would like to start with Carol Hannah . Was it easy to work with her ? Lisa is amazing . I tried to kind of feel out what side of her personality she really wanted to show , and then I took that and tried to infuse my style in it . This is just beautifully executed . I mean , the juxtaposition of the draping with the sharp-edged skirt is really beautiful . I think you did a really great job . - So well done . - Thank you . I think it 's really sophisticated but not stuffy at all . It 's just a good mix of soft and hard , but still edgy . It 's very cool . It 's really good to hear that y'all see the

juxtaposition of the soft with the hard because that 's really kind of the core of my aesthetic . Did you just say " y'all " ? - - That is so cute . I 'm from Charleston . All right . Let 's move on to Logan . Let 's hear from your model what she wanted to look like . I like lace , I like feathers , and I think that 's what he got . I wrote down , " No , cheap , tacky , prom . " - I wrote " prom , " too . - Yeah . I think it 's the mix with the lace or something ... Well , it does n't look like lace on the top there . - It looks a little thick . - When I purchased the lace , and when I got it back to the workroom , I looked at it , and it was just this more of a floral print . So I actually doubled up the lace to kind of ... - I think that 's the problem to try to get rid of it because it just reads too black . - Do you like it ? - The silhouette is definitely a little bit different than what I normally work with . I actually almost scratched this whole idea of the bottom - and made it into a pencil ... - You totally should have . I mean , that 's a classic example of you have to listen ***LOADED - to your first instinct . - Right . You 're really cute , and I like your pants and your sneakers . I hope that helps me somewhere , I guess . For sure . Epperson , I would like to know from Matar what you wanted . Something that is romantic and punk at the same time , and I also wanted something that is animal inspired . Why is that ? Do you feel like you have the kitty cat inside of you ? - Right ? - Yeah . I like it to , you know , kind of tiger ... fit with my hair . I love the dress . I know how difficult it is to take stretch fabrics and applique them on top of each other . - And you did an incredible job . - Thank you . I mean , I do a lot of the lattice mixing over . But , you know , with stretch fabric , it was difficult . You 're a craftsman , and it 's obvious . You 've taken a simple silhouette , which we 've seen a million times , and you 've given it , literally , a new

twist . Wow . Thank you so much . I love the dress very much . I think she looks really sexy in it . But she needs help up top . - You know ? - To me , it 's okay . Maybe it 's because I 've been working for Victoria 's Secret for too long . For me , they have to be perky , and they have to be in the right spot . This says to me , this guy has a concept of how clothing is made , he 's bringing some things unique and different . Job well done . Thank you . Let 's continue with Johnny . What did you want ? Okay , um , I wanted something purple . Just fun , flirty , young , pretty . Here 's what I wrote on my card :

" The purse is the most interesting thing about this outfit . " It 's a cute dress , but it does n't really show me anything unique about your design aesthetic . The world really does n't need more of that dress . To me , it looks very bridesmaid . If she had , like , the flowers ***LOADED in her hand like this , and there would be four more ... Oh , God ! It 's like a blessing and a curse in the fashion world ... " wearable . " - I understand completely .

- On the one hand , you 're like , " Oh , super . " On the other hand , you 're like , " Aagh , wearable . " I appreciate all your criticism . I really do . '

Cause that way , when I go forward , I use that as a stepping stone . That 's very smart . Qristyl . Valerie , tell us , what did you want ? I wanted a dark color . I wanted something that was effortless , chic , and I wanted it above the knee . I feel like she does not look youthful to me . You 've just aged her , years , which , for the model world , is like dog years . Why , of all the fabrics that exist in Downtown Los Angeles , would you pick the most plain , black ... Is that , like , a jersey or something ? There was a really pretty green color . I just was n't sure . But that 's what happens is ... you did n't take a risk . You went with the safest thing , and honestly , that never pays off . Valerie , do you like your dress ? Yeah , I do . Um ... But that 's why

Valerie 's not a designer ***LOADED . Right ? - Yeah . - Thank God . Althea ,
how was it working with your model ? She 's great , because I think she comes
with a great sense of style . So that was easy to work with . I have to say ,
you were one of the best walkers today on the runway ***LOADED . - Oh , thank
you . - You strutted like you meant it . This is why I never let anyone take
her . I liked it very much . I thought it was very chic . Like , I would
literally buy this right now , tomorrow , for a client . Like , I want it . I
wanna leave here with that jacket on my arms , okay ? Love the shoes , the
fabric . It 's just so simple but really , really well done . Love it . I , too
, wanna walk out of there with it . I think I 've worn a suit once in my life
and hung my head afterwards . - This is a suit . - Wow . Thank you very much .
Okay , we 've heard what you have to say . We 're gonna have a little chat ,
and then we 'll call you back . You can leave the runway ***LOADED . Thank you
. Let 's start with who we did n't like . Qristyl . When you create something
in black , it usually looks much better than color . You can get away with
murder . And I think she succeeded in making a simple black dress look kind of
cheap . The challenge was to make the model stand out at an industry party ,
which she did n't do . She basically looked like the girl that was serving your
drinks , where you would be like , " Excuse me , ma'am . Can I have another
glass of champagne ? " Just ew . Okay , let 's move on to Logan . I just think
she gave him lace , she gave him ' s , she gave him feathers . - He could 've
done something very cool . - Yeah . I mean , that dress was just ... He did get
too sucked in to ... by what his model wanted and kind of , like , lost his way
a little bit . Johnny . - It was safe . - Boring and too accessible . Anybody
could wear that . And who cares ? You have to push the envelope a little bit ,
you know ? That 's why we 're not responding to a black dress . - Yes . - You

know ? Or to a prom dress . So let 's talk about , then , who we did like .

Althea . I loved Althea 's . - That was , for me , a breath of fresh air . -

Mm-hmm . And she made three pieces ... Right . It all worked . All that could work great individually , great together . The model felt it . The model worked it . All right . Let 's talk about Carol Hannah . I think she did a fabulous job , too . - I thought her model looked really classy . - It was great . It had a little bit of sex appeal . It was draped and very sweet , but at the side was very bare . - It was very well executed , I think . - Great . It 's so important how clothes move . It looked great static is one thing , but these clothes have to function ***LOADED in a real world , and that moved beautifully . I do like Epperson . I think that he showed today something ... that he can be edgy . It looked like it was painted on , and that is the true test of someone who really knows how to make clothes . - It was sexy and chic .

- In terms of body , you could see the body on that model the best . I take your point about her boobs , though . I 'm just obsessed about boobs . That 's just my thing . It was definitely a new bra situation . It was a new bra situation . Or a no-boob model . There are many of them out there who are very famous . Not you , Heidi . - So we 've made our decision ? - Yes . All right .

Let 's bring them back out . The six of you represent the best and the worst . One of you will be named the winner ***LOADED , and one of you will be out . The six of you represent the best and the worst . One of you will be named the winner ***LOADED , and one of you will be out . Epperson . Yes ? You 're in .

You can leave the runway ***LOADED . Thank you . Bye . Althea , you are the winner ***LOADED of this challenge . Yay , Althea . You also have immunity for the next challenge and cannot be eliminated . You can leave the runway ***LOADED . Thank you , guys , very much . You won ? - - It feels good . '

Cause I 've been in the top three before , and I just really wanted that win .

Carol Hannah , you 're in . - You can leave the runway ***LOADED . - Thank you

. Johnny , you 're in . You can leave the runway ***LOADED . Thank you .

Qristyl , Logan , one of you will be out . Qristyl , your black cocktail dress

is boring , and , unfortunately , looks cheap . You did n't take any chances ,

and that 's something a successful designer ***LOADED needs to do . It 's true

. Logan , your model would stand out at a party , but for all the wrong reasons

. From fabric choice and styling to silhouette , it really missed the mark .

Logan you 're in . - You can leave the runway ***LOADED . - Thank you

. Go win . That means , Qristyl , you 're out . Thank you for such an amazing

opportunity . This was a dream come true . Thank you . - Auf Wiedersehen . -

Bye . It 's a little too soon for me to have been eliminated , I feel . Qristyl

, you 're good at what you do . Just keep doing it . - Do n't get ... - Nah ,

it 's all good . I have a lot more to show and a lot more to prove , and I did

n't get that chance . - So I have to deliver the line . - All right . I have to

send you to the workroom to clean up your space . Do I think I 'm a great

designer ***LOADED ? I know I 'm a great designer ***LOADED . Am I gonna

still keep moving forward ? Absolutely , I am . I 've been doing this for a

long time . This is all I 've ever wanted to be . Next week on Project Runway

***LOADED ... This challenge will definitely be tough , but the answers will

all be in black and white . This is the fabric for your challenge . I 'm

speechless . Looking at the design , it 's very ho-hum . - You are gonna have a

time challenge . - I do . It looks like a bunch of kindergarteners did it . -

Ouch . - Oh , my God . I 'm so nervous ! It 's just a nightmare . Some of you

look like you 're kind of stalling out . I 'm just really struggling . It looks

like an insect . That 's probably my mistake . - It was just tacky . - Jerk .
